- [JULES help](#)

New Tech on the trunk

New rose stem tests:

Rose-stem test have increased from 29 to 36.

Including a new dataset ERAINT present used for rivers (rfm and trip) – thanks to Camilla Mathison, Chantelle Burton, Eddy Robertson, Eleanor Burke and Huw Lewis.

Lots of code tidying and improvements – thank to Doug Clark for all his help and support with this.

Met Office

What next?

Community to take a lead in supporting each other and hopefully more JULES technical support is on the way???
